## SPLX / 14

### TECHNICAL DATA:

- lance length 65 cm
- double spiral hose 5 m
- stainless steel atomizing nozzle
- maximum pressure 8 bar
- liquid flow rate adjustment valve
- pressure regulator

### **SANITISERS - SANI SPRAYERS**

Pneumatic equipment for the fine atomization of sanitizing liquids; it is equipped with a special lance and is ideal for spraying inside environments, cars, vans or directly on surfaces such as: worktops, shelving, stored goods, incoming and outgoing goods pallets, etc.

By operating the lance, the product is sprayed and finely atomized with a "CLOUD" effect and by directing the jet it is possible to reach any point, even the most hidden corners.

With SANI-SPRAYER it is possible to regulate the atomization, thus allowing to obtain a more or less dry "fog".

Made of AISI 304 stainless steel, SANI-SPRAYER LANCIA is available in two models: with 14 Lt tank (mod. SPLX / 14) and with 24 Lt tank (mod. SPLX / 24).

SUITABLE for use with substances considered effective against COVID-19 such as 0.5% HYDROGEN PEROXIDE and 0.5% SODIUM HYPOCHLORITE active chlorine (not usable with flammable substances, e.g. alcohol)
